## CITY OF TRUTH OR CONSEQUENCES MUST REPENT: PART 15

A call to remove property taxes for schools! Stop county assessment-collection-disbursement from the taxing criteria. Has public education K-12 been a slush fund to destroy society by corrupting youth? From circa 1940-2023, New Mexico has been nearly last or last of the 50 states!

300 years ago in England and the 13 colonies youth between ages 3 to 9 could read and write Hebrew, Latin and Greek! Thus understand Biblical scripture, Aristotle, Cicero, Plato, Herodotus, Euclid, and the like to not be taken in by contemporary corruptions, chicanery, machinations and repeating despotism(s).

In New Mexico, just 21% (1 in 5) of fourth-grade students and 18% of eighth-graders are proficient in reading. The average proficiency rate among the two grades of 19.5% is below the national! About 21% of eighth-graders are proficient in 'math' and only 23% in reading! Nationwide, a little more than a third of eighth-graders are proficient in reading and math.

New Mexico students had the lowest performance of all states!

People! Your children aren't defective! From circa 1852 to 2023 there has been a concerted effort to dumb-down America! That's real child abuse! You \$pay the most and receive the worst results - deliberately! Would any prudent man continue the destruction of America? People! Demand the curriculum(s) of circa 1720s era!

To promote election integrity visit and read the evidence! (https://election-integrity.info/) Here's what Professor David Clements found in Las Cruces, New Mexico! Watch: (https://franksspeech.com/Video/professor-david-clements-joins-to-discuss-voter-fraud-and-ballot-harvesting)

World Economic Forum spokesperson Professor Mariana Mazzucato lamenting how COVID and climate change failed to bring about a world government before insinuating that a water crisis will be the catalyst. Evil never sleeps!

All counties must forbid and

remove 5G, smart meters, and go to only fiber optics for safe transmission of data. Video: Proves 5G Causes Cancer & Chemicals disrupt Endocrine System and more America! (https://www.in-fowars.com/posts/video-rfk-jr-proves-5g-causes-cancer-chemicals-are-bending-the-gender-of-americans/).

Watch Child drugging and trafficking at (https://www.in-fowars.com/posts/shock-video-bidens-border-patrol-allows-traffickers-to-smuggle-drugged-children-across-us-border/).

Please encourage your family, friends, neighbors and those you don't know to stop watching the lying news. Prostituted politicians, the criminal eugenics health officials and their talking heads, constantly repeating the very same propaganda!

More to come!

## FIRST AMENDMENT REVIEW

After a quick review of the Hot Springs School District Student Handbook for 2023-2024, there seems to be a misunderstanding of 1st Amendment to the U.S. Constitution, and the SCOTUS decision of free speech and students in public schools. Tinker vs. Des Moines in particular.

Maybe the District should refresh themselves of this decision, and parents might ask what is being discussed in regards to the U.S. Constitution within the classrooms.

## LACK OF TRANSPARENCY

Seeing chatter online and in person one of biggest issues I see is lack of transparency in all levels of governments, but that is two way street. As even with info is put out a lot of citizens will misconstrue the information to fit a certain thinking. While there is no way to 100% stop misconstruing information. Governments should put out better and detailed info on easy to navigate websites on issues we are seeing.

I know that would take more resources, but it would benefit us all across the board and it would also give citizens 24/7 access to info on their schedules. Besides the internet, meetings should not be always held in the mornings and maybe some public feedback/info on project meetings

could be held on weekends and be posted on like YouTube for later or repeat viewing.

I'm glad to see Sentinel printing weekly water breaks lists in paper. Along with the City of T-or-C, Elephant Butte along with the county and posting more public info on Facebook as most of us are on it or know someone that is.

It is going to take us working together to turn the page on rumors, misconstruing information on all these issues that we all face from local all the way up to federal level.

## School Staff Highlights

The T-or-C Municipal School District will be recognizing and honoring a teacher or staff member who has made a difference, in the lives of the students and their colleagues. There are many unsung heroes in the schools, we bring you this feature to spotlight the greatness in our school and our community.

Carol is the TCMS Special Education Teacher and has been in the district for eight years. Mrs. Bolke graduated from Burges High School in El Paso. She earned her bachelor's degree in education in Corpus Christi, her master's as a reading specialist in El Paso and she became licensed as an educational administrator in New Mexico. Mrs. Bolke is married, has six children, and loves to travel! What she loves most about working in the Truth or Consequences Municipal School District is being a person who can guide students through their good days and their rough days, while teaching students how to navigate relationships and their studies.

## Early Voting Begins Oct. 10

By Chuck Wentworth  
SENTINEL

©Copyright 2023 Sierra County Sentinel

Early in-person and absentee voting for the November 7, Regular Local Election will begin Tuesday, October 10 in the County Commission's Chambers, located in the county's administrative building at 1712 N. Date Street.

Beginning Tuesday, the hours for early voting will be from 8 am until 5 pm on weekdays, through Friday, November 3.

The final day of early voting will be Saturday, November 4 from 10 am until 6 pm.

Information about early in-person voting, obtaining an Absentee ballot, or other issues relating to the 2023 Regular Local Election is available through the Sierra County Clerk's Office, 1712 North Date Street, 575-894-2840, or by visiting the clerk's office page on Sierra County's website [www.sierraco.org](http://www.sierraco.org). A full array of information about the 2023 Regular Local Election is also available online by visiting the New Mexico Secretary of State's website at <https://www.sos.state.nm.us/>.

## NOTICE: Your Children Are in Danger

By William George Norris

The people of Sierra County must never forget what Barbara Pearlman did at the School Board meeting on May 8<sup>th</sup> 2023 to pervert the K-5 children of this community. She made a motion to approve a diabolic curriculum that presents LGBT behavior as acceptable and normal behavior. She was the ONLY one who said that this curriculum was OK. We must remove Barbara Pearlman and elect those who represent the values of the majority of the people in this County. On November 7<sup>th</sup> vote for Tracy A. Stout-Cole and Ava Rebecca Bartoo to the T or C Municipal School Board. For more information, you can contact me at [WilliamGeorgeNorris@gmail.com](mailto:WilliamGeorgeNorris@gmail.com).
