

Declan Power's Run for Waterford Local Elections and Agenda

By Declan Power (MLRIreland@outlook.com)

Introduction

My name is Declan Power, I am here to announce my candidacy for the local elections in Kilmacthomas, Co. Waterford. I am part of a group of independent political candidates that have shared values, called The Irish People [For more information on The Irish People go to www.irishpeople.org]. While each candidate agrees with the core issues of the natural law and putting the Irish people 1st, we also have our own convictions and conscience, mine is from the true and traditional Catholic viewpoint, though not associated with Rome as they have lost the faith for a very long time now. [For more information go to www.JohnTheBaptist.us]

My political goals

The primary job of local councilors is to solve problems in the community, such as issues in the public services, road works, and divert funding where needed, and this should go without saying, but I will do my full duty in this regard.

However, the main reason I am getting involved in politics is because there are much greater issues in our country that I want to fight. These issues will prove to be an absolute detriment to our local communities, so much so that they will lose their identity entirely – it is already happening in small towns throughout the country. It is up to the Irish people on the local level 1st to highlight these issues. It is not just about politics anymore, we are under attack by globalist interests that seek to undermine and destroy our communities. I will be the voice of our community in defence of common sense, conservative values and the natural law. I hope you put your trust in me, so that we can say at the very least we did not stand for this, we did what we could. And even if I do not get elected, I will still be fighting these issues as it is the duty of any Irish man.

Three prominent issues facing Ireland

The hate speech bill – I will fight this tooth and nail, because if it passes, the globalists will have free reign, they will shut down any discourse, and to put it bluntly, this will allow them to rape our country, with the Irish people as the silenced victim.

Mass Immigration – Unless you are living under a rock, you will know our country is being flooded with migrants. This is an incredibly sinister agenda and has nothing to do with helping the needy. First of all, Irish birth rates are below replacement levels, and yet the government predicts to have 10 million people in Ireland by 2040 (announced by Simon Covney in 2017), almost double the current population. Now do the math, it won't be the Irish people accounting for this population influx. By 2040, the Irish people will be a minority in their own country, that is effectively what Covney announced to the country. And it is entirely reasonable to assume it will happen much sooner than this. I will not be politically correct and say we just need to stop and control migration, rather we need to reverse it and as soon as possible. Already 22% of our population consists of those who were born outside of Ireland. This is far too high and is an abuse of our charity. Further, if we want to save our country, we need to incentivize big families with tax breaks, in a similar way Victor Orban has done in Hungary. Not to mention we need to

incentivize our huge international Diaspora to return. Some of our most skilled and talented Irish brothers and sisters have been driven off this Island (in a Satanic reversal of St. Patrick driving out the snakes). It doesn't take a genius to see why, just look at the cost of living and the housing crisis. Meanwhile people we don't know, mostly men of military age get a free ride by the government, with free housing and handouts, clogging up essential public services, all the while using our own taxes to accomplish this self-destruction. This is all by design.

The LGBT agenda must be stopped. It is an affront to God almighty, and an abomination in our community. My first goal in this regard is to stop indoctrinating our children, since it is child abuse, while the most extreme form is teaching them that it's ok to mutilate themselves or take puberty blockers. Ultimately, I want to make it illegal to teach or display the LGBT agenda publicly altogether. If people want to sin privately, that's their problem and they will face God on judgment day. But I will not be an accomplice in their immoral crimes by saying nothing and allowing degeneracy run amok publicly. And make no mistake, it is just another arm of the globalists that aims to undermine and destroy our country. If you abandon the natural law, God will abandon you [(Romans 1:28.32): "For this cause God delivered them up to shameful affections. For their women have changed the natural use into that use which is against nature. And in like manner, the men also, leaving the natural use of the women have burned in their lusts one towards another, men with men working that which is filthy and receiving in themselves the recompense which was due to their error"]. There is also no coincidence that the vast majority of LGBT proponents are also pro-abortion, or pro-mass immigration, or pro-hate speech laws, anti-family and anti-Christ. It's all connected, it is all part and parcel of the Satanic agenda that has engulfed our once Holy nation.

More on Local issues

You hear sales tactics from local councillors all the time. They will fix this or that local issue, and yet, have they even done their duty for our community or do they have other interests? Look where the money is being spent. Were they just upholding the party line? Just look at the fruit of their labour, look how the green agenda is constantly attacking our farmers, leaving them impotent in passing on their livelihood to their children. Mass immigration is draining our public services, and on the local level results in endless waiting lists for doctors appointments. It's also driving housing prices through the roof. These same FF/FG/SF councilors are not interested in the country, but lining their pockets and towing the party line (note how many TD's are landlords). They may appease you in the short term by filling a few potholes, but we can now see their fruits, that is to say the rotten fruit that they represent.

My Plan

While it is unrealistic that I get elected, I am making my voice known, thereby setting myself up for the next election cycle. I will also use my time to support other candidates with similar values that are electable [List at the end]. By the very fact that I am willing to say what needs to be said, and these cowards previously elected turn blind eyes and appease party lines and globalist interests, that is all you need to know that I will be honest and transparent in my local duties. I also have also a degree in economics and have many ideas to improve our community on the local level. But it is the greater national issues Ireland faces that will encroach and destroy it 1st, and that's why I highlight these issues. The solution starts at the local level.

May God almighty have mercy on us and our once Holy nation. Sts. Patrick, Columba, Brigid, pray for us.
